Berlin

### NUMISMATA Frankfurt

**3rd and 4th November 2012**  
Forum of the Fair  
Frankfurt/Main

This is the biggest international numismatic fair in the world for its kind and variety. The fair is a great numismatic event with coins and medals from antiquity to modern times, with banknotes, securities and specialist literature.

The biggest trading venue in the world for classical numismatics is visited by specialists, professionals, money investors and collectors who sell, buy or obtain advice from 260 exhibitors presenting objects of numismatic interest in an area of 2800 to 3800 square metres.

With its events in Munich, Berlin, and Frankfurt, NUMISMATA covers the whole of Germany. So no matter where a dealer or collector may be, he/she is not far from one of these cities.

Since May, 2009 the NUMISMATA has taken place in Vienna, Austria, in the heart of the Habsburgs' Empire, and situated on the border between the West and the former Eastern bloc. This will certainly be yet another opportunity to bring the two sides closer.
